# **DataDot**
Marked & Secure

Bettysbay Neighbourhood Watch

has found a cost-effective method to protect our entire neighbourhood

For a once-off reduced price of **R275** you can dot all your household valuables with tiny microdots that contain a unique 10 digit PIN number that is linked to you as owner

When dotting the entire neighbourhood we send out the following strong message:

> ## THIEVES BEWARE. PROPERTY IS MARKED.
> ## IF CAUGHT WITH MARKED PROPERTY, THE OWNER WILL BE IDENTIFIED AND YOU WILL BE PROSECUTED

Please become part of this important initiative through the following easy steps:

STEP 1: Send a mail to chris@datadot.co.za with your name and number or sms **BETTYSBAY** to **31269**

STEP 2: They will call you back to pre-register you on the database and arrange for delivery of your product (during this process the PIN number of the product will be transferred to your profile)

STEP 3: You will receive a SMS with your secure username and password.

STEP 4: Download the mobile app from Google Playstore (NHAR) or go to **https://www.nhar.co.za**

STEP 5: Receive your kit and mark your items with our easy to use tube – just squeeze gently and apply onto various areas per item. Add the warning boards and stickers to your property. You can also add the details of your assets to your personal Asset Register on the app. If you need help in dotting your items we can arrange for someone to assist with this process.
